Figma
AdobeXD
Photoshop

Testimonials

Clutch reviews

5.0

2 clutch reviews

“They ask good questions, raise valid concerns, and suggest improvements when they see something that might work better. They are friendly, polite, and always a pleasure to work with, and that comes through in each interaction. Even though we’re on different continents, it often feels like they could be working alongside us in our studio.”

Tim @ Heelix

“I feel like we are one team. They challenge me, I challenge them. We celebrate our success together. This is no ordinary company. We have a very open dialogue and approach to how we improve things together.”

Matt @ Mixer Design Group

Why CodersPeak?

Most importantly, because we are getting the things done!

Something so simple, yet so elusive.

We are a part of the Polish Software Development Association and based in one of the hottest IT destinations in Europe - Kraków, Poland. Therefore we benefit from an excellent IT ecosystem, a convenient time zone, logistics, and a great talent pool.

Our personal approach combined with an in-depth knowledge of project coordination, ensures the work is moving forward smoothly.
